

Laser Mini to engraving and cutting

Mini

Laser Mini makes engraving and cutting easy to use. It's a compact machine that has the water cooling, smoke extraction and compressor systems incorporated, which makes it great for anyone who has little space and big ideas.

Smooth and accurate, little waste, low power consumption and quieter are some advantages of this machine.

Possible Materials

Acrylic, rubber, plastic, paper, crystal, bamboo, wood, embroidery, fabrics, leather and other non-metallic materials.

Applicable to Industries:

Advertising, electronics, graphic and cardboard, textile, footwear, decoration and leather industries.

Technical Parameters	
Laser Power	35W
Working Area	458 mm x 305 mm
Cooling System	Cooled Water
Laser Tube	CO2 Laser Glass
Engraving Speed	Up to 1200 mm/s
Cutting Speed	Up to 600 mm/s
Motor System	Step Motor
Power	220V - 50/60HZ - 10A Max.
Environmental Standards	Temp.: 15-35°C Humidity: 30%-80% (non-condensing)
